Mastering DevOps & Server Management

Ostad Platform
April 2025 – September 2025

Complete Web Development

With Jhankar Mahub
Programming Hero
January 2024 – June 2024

Industrial Training in

Web Development

European IT Institute
August 2023 – November 2023

SUMMARY

Full Stack Developer currently working at NextGent Marketing, building scalable web applications end to end. Core stack: React.js, Node.js, Express.js, and MongoDB — with hands-on experience designing REST APIs, authentication (JWT/Firebase), and deploying & managing servers on AWS and Hostinger VPS. Focused on building software that's fast, secure, and built to last.

EXPERIENCE

Full Stack Developer & DevOps Engineer — NextGent Marketing

October 30, 2025 – Present · Full-Time

- Building and maintaining web applications as a Full Stack Developer using MongoDB, Express.js, React.js, and Node.js.
- Developing responsive, modern, and performant user interfaces using React.js and Tailwind CSS.
- Designing and integrating scalable backend RESTful APIs with Node.js, Express.js, and MongoDB.
- Managing cloud server deployments and DevOps operations on AWS and Hostinger VPS using Linux, Nginx, and PM2.
- Collaborating with cross-functional teams to deliver high-quality client solutions with clean, maintainable code.

PROJECTS

1. Zestora Restaurant — Full-Stack Food Ordering Platform [Live Site](#) | [Client](#) | [Server](#)

- Easily search, filter, and sort food items.
- Separate dashboards for users and admin.
- Users can book tables; reservations remain pending until confirmed by admin.
- Smooth pagination and interactive UI enhancing user experience.

Technologies: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, TanStack Query, JWT, etc.

2. Fund Flow — Crowdfunding & Donation Web App [Live Site](#) | [Client](#) | [Server](#)

- Users can easily browse campaigns and contribute funds.
- Donations are processed securely via Stripe.
- Users can view their past donations with details.

Technologies: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Stripe.js, Firebase, etc.

3. Site Network — Enterprise Web Platform & Management [Live Site](#) | [Client](#) | [Server](#)

- Enterprise platform for managing and scaling organic search rankings through editorial backlinks.
- Role-based dashboards for managing publishers, orders, and reporting.
- Secure payments and real-time management tools for enterprise clients.

Technologies: React.js, Node.js, Express.js, Tailwind CSS, Stripe.js, Firebase, etc. (NextGent Marketing project)
